Figure 1.

Chose a clean dry location to install the party drop frame in order to allow for two crew members to clip together all frame pieces and apply backdrop with two small step ladders. Please note the number coding on each section of the frame and join each corresponding numbers with the correct frame sections as per the following instructions.

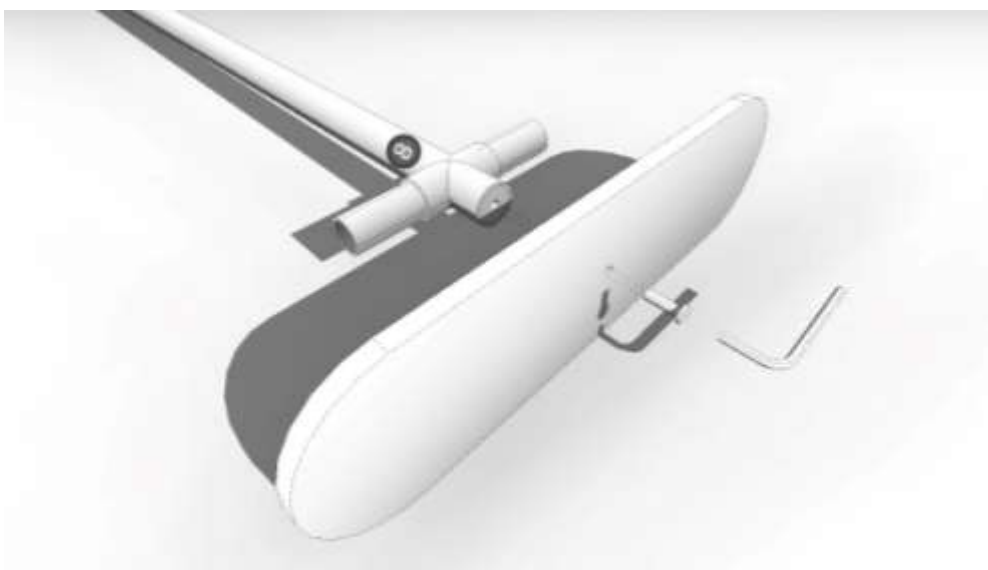

Figure 2.

Begin by constructing the upright bars at locations 1, 8 and 7 to the provided metal baseplates. Remove the provided screw from the base and attach as pictured with the provided Allen Key.

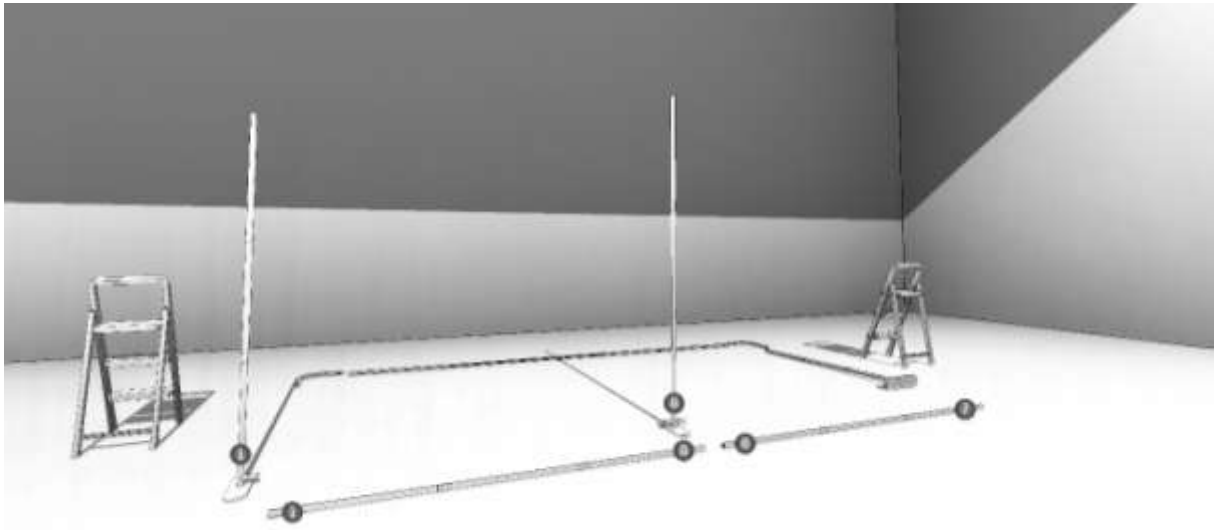

Figure 3.

Stand each upright frame with base plate attached and ensure that baseplates are facing front to back to stabilise the structure and weight of the backdrop. Joint together and then connect frames 1/8 to the corresponding numbers. Repeat with section 8/7.

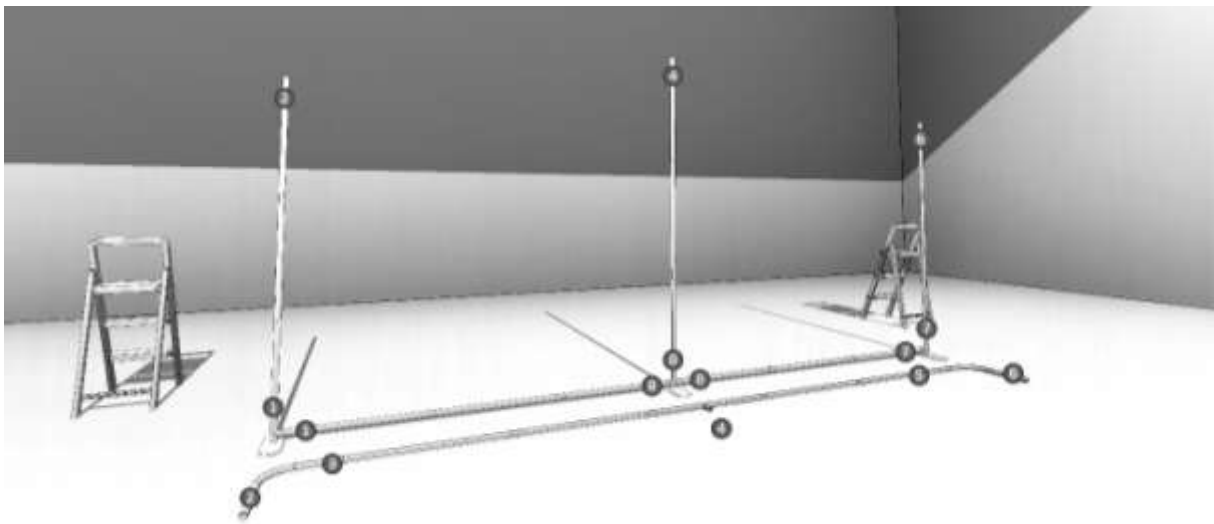

Figure 4.

Connect the curved corner sections 2/3 and 5/6 to the top cross section number 4.

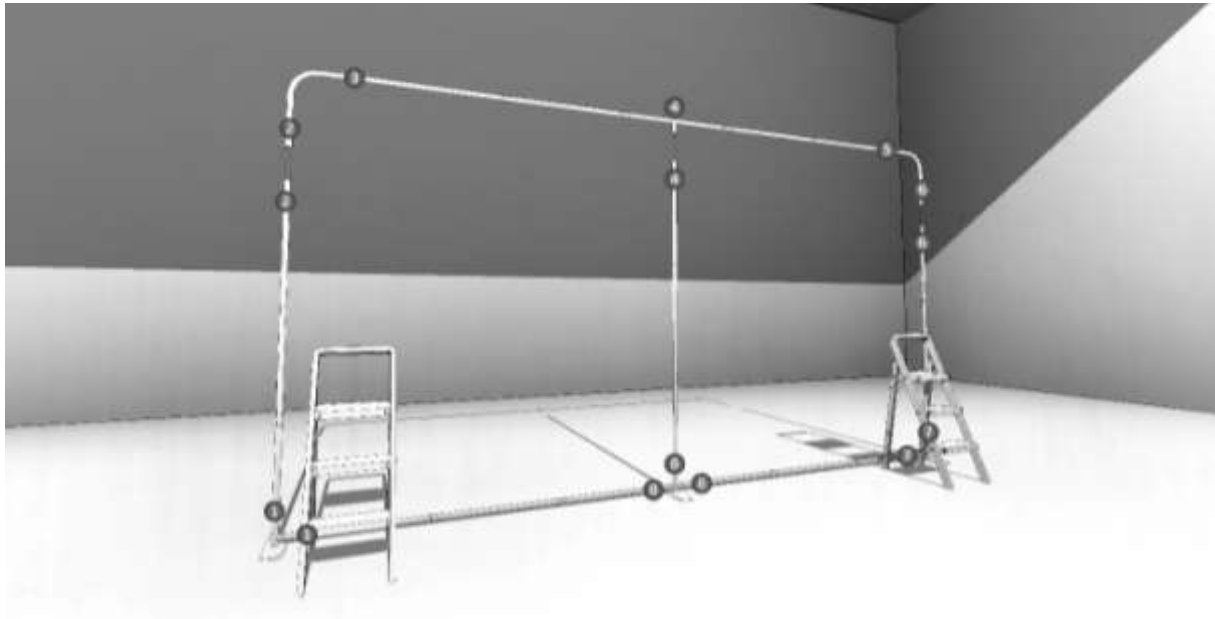

Figure 5.

With the assistance of a crew member and two small step ladders attach section 4 to its corresponding section and repeat on the ends with sections 2 and sections 6.

Figure 6.

Ensure the frame is stable. Install the backdrop cover with two crew on step ladders. Raise one side over frame and gently pull along the top of the framing until both sides can easily slide down to the bottom of the framework.
