

# RED CARPET

## INSTALLATION GUIDE

- Recommended carpet tape.
- Additional carpet tape in high traffic areas.

### WARNING

Do NOT apply double sided carpet tape to painted floors. Damage will occur.

Do NOT tape surface-edges or surface of carpet. Fibers / finish will be damaged.

## Red Carpet Installation Steps

1. Clean flooring where carpet will be placed.
2. Unroll carpet.
3. Position carpet into desired position.
4. Flip one end approx. 60cm to reveal bottom of carpet.
5. Tape around entire perimeter of carpet as close to edge as possible (see diagram above).
6. Tape additional strip 400cm on either end where guest will enter and exit red carpet.
7. Peel off tape backing from one end and press to secure bonding of tape, carpet and floor.
8. Peel remaining tape backing and press carpet to floor.
9. Stand/walk over taped end several times. Your body weight will help the tape bond to the ground.
10. Sweep or vacuum carpet to remove any dust or debris.
